CLEANING				
Remove 100+ metadata types from Microsoft, PDF and PDF/A documents	✓	✓	✓	✓
Sub-second comprehensive cleaning	✓	✓	✓	✓
Clean documents concurrently via multi-threading	✓	✓	✓	✓
Desktop solution: analyze, clean, and convert from Windows Explorer	✓	✓		*
Clean individual files or whole directories	✓	✓		*
Clean image files (.JPG and .PNG)	✓	✓		
Clean attachments sent from Outlook (Microsoft Office/Windows)	✓	✓	✓	*
Cleans any email not cleaned on the Desktop via Outlook add-in (mobile devices, webmail, Outlook for Mac, etc)			✓	
Supports cleaning folders via a right-click	✓	✓		
Unlimited cleaning pre-sets when emailing	✓	✓		*
Clean compressed files (ZIP)	✓	✓	✓	*
Clean attachments inside nested emails (MSG files)	✓	✓	In R1.6 U1	*
Clean password-protected documents, including PDFs	✓	✓	✓	✓
Automatically zip large attachments (+ optionally apply passwords to Zip)	✓	✓		*
Prompt to convert to PDF on detection of non-removable Excel data	✓	✓		
Alert Users to Track Changes and Comments in documents	✓	✓	✓	*
Preview, analyze, clean metadata from Microsoft Office apps and PDFs	✓	✓		*
Rename attachments while cleaning	✓	✓		
Controlled programmatically to automate workflows		limited		full
EMAIL RECIPIENT CHECKING				
Ability to review full email address, not just Outlook short name		✓		
Check and request confirmation of suspect email addresses before sending emails		✓		
Remember approvals per conversations, to shorten workflow		✓		
Allow configuration of blacklisted and whitelisted emails		✓		
Flag emails to high-risk (Gmail, Yahoo, etc) or non-standard addresses		✓		
Prompt before send on Reply All, Forward, and blank Subject line emails		✓		
Warn if replying to a Bcc'd email		✓		
SECURITY				
Configure security to apply company-wide or to an individual	✓	✓	✓	*
Analyze documents on Send to assess risk	✓	✓		*
Alert users of found metadata they may want to clean	✓	✓	✓	*
Anonymize author information in Track Changes/Comments	✓	✓	✓	✓
Control potential data leaks as well as metadata	✓	✓	✓	*
Amend or add specific metadata and properties	✓	✓	✓	✓
Unlimited number of pre-set cleaning policies	✓	✓	✓	✓
Enforce company-wide metadata removal policies	✓	✓	✓	*
Convert documents and attachments to PDF or PDF/A	✓	✓	✓	
Report of metadata found in a document	✓	✓		✓

* CLSDK supports developers creating apps that do this, however the SDK doesn't offer this functionality directly.

INTEGRATIONS				
Microsoft Office integration via ribbon icons	✓	✓		*
Does not require Microsoft Office to be installed to clean	✓	✓	✓	✓
DMS Desktop integration with:		✓		*
iManage Filesite/Desksite		✓		
iManage Work 10		✓		
iManage Share		✓		
NetDocuments		✓		
OpenText eDOCS DM		✓		
HighQ		✓		

DEPLOYMENT				
Easy to deploy and configure as product	✓	✓	✓	✓
Configuration Manager for quick central configuration and deployment	✓	✓	✓	**
Unified approach to metadata cleaning	✓	✓	✓	✓
Clean and easy to use UI, no learn time necessary				
Citrix compatible	✓	✓		✓
Automation (SDK/CLI)		✓		✓
Supports 32 and 64 bit operating system	✓	✓	✓	✓

** cleanDocsSDK readme documentation recommends developers download a copy of cleanDocs and use its Configuration Manager to create policies to use with the SDK.

cleanDocs removes metadata at sub-second speeds

cleanDocs removes metadata from documents at sub-second speeds thanks to binary-level and multithread processing. Below are samples of cleanDocs speed.

cleanDocsSDK requires developers to use multiple threads to achieve parallel processing, as indicated by the 4x simple and 4x complex benchmarks below.

MS WORD DOCUMENT	cleanDocs
Simple 10-page document	0.43 s
Simple 100-page document	0.49 s
Complex 10-page document	0.6 s
Complex 100-page document	1.57 s
4 x simple 10-page documents	0.99 s
4 x complex 10-page documents	1.38 s
