Notes

a – Both x32 and x64 supported.

Note: Office 365 is supported when installed locally

a1 – Both x32 and x64 supported.

Note: Office 365 is supported when installed locally

a2 – cleanDocs Outlook add-in supports Outlook 2007, 2010 and 2013, and integrates with Word 2010 and 2013. Both x32 and x64 Office versions are supported.

a22 - cleanDocs 1.7 U3 (v1.7.300.1) supports Office 2016 32bit (64bit compatibility to be released in a future release)

Note: Office 365 is supported when installed locally.

- For a full list of system requirements, please refer to each products System Requirement page at www.docscorp.com/products/

1 – Also including FileSite & DeskSite integration via Worksite Anywhere

Import / Open from iManage available.

Save into options are Save as New Document / Current Version / New Version or Related.

pdfDocs right click options offer Save As New Document / New Version / Related Document; Email as PDF; Apply Digital Signature; OCR to Word; Load into Project.

compareDocs right click options offer Send to compareDocs.

1a – contentCrawler options available - Save as New Version; Save as Related and Replace Original.

1aa – pdfDocs 4

Also including FileSite & DeskSite integration via Worksite Anywhere

Import / Open from iManage available.

Save into options are Save as New Document / Current Version / New Version or Related.

pdfDocs right click options offer Open in pdfDocs; Import into Project; Email as PDF; Save as New Document / New Version / Related Document; Export to Word.

2 – Import from HP TRIM not currently available.

Save into options offer Create rendition as PDF; Create new version as PDF; Convert record to PDF and Create new record as PDF

HP TRIM external Links offer Load into Project as PDF; Email as PDF; Create Rendition as PDF / New version as PDF / New Record as PDF; Convert record to PDF.

pdfDocs is currently only compatible with HP TRIM Client 32bit, and not compatible with HP TRIM Client 64bit.

2a – contentCrawler options available - Save as New Revision and Replace Original.

Also see additional information on HP TRIM Email Record handling in contentCrawler Installation and Administration Guide – Section 5.6.3.1

3 – Import from Microsoft SharePoint available.

Save into options are as New Document, or New Version if version control enabled in SharePoint.

Microsoft SharePoint right clicks offer Send to pdfDocs.

3a -compareDocs - Open from Microsoft SharePoint is now available.

Save into options are as New Document, or New Version if version control enabled in SharePoint

Microsoft SharePoint right clicks offer Send to compareDocs.

Notes

3b – contentCrawler options available for SharePoint 2007; 2010, 2013 SP1 and SharePoint Online (O365) - Save as New Version and Replace Original.

Also see documentation on SharePoint version handling

[ContentCrawler_SharePoint2007_Versioning](#)

[ContentCrawler_SharePoint2010_Versioning](#)

[ContentCrawler_SharePointOnline_Versioning](#)

4 - Import from NetDocuments available.

Save into to NetDocuments as New Document / Version or Related Document.

For ndOffice, Save into to NetDocuments as New Document / Version or Attachment

In NetDocuments, Send to application.

contentCrawler options available are Save as New Version and Save as Replace Original. Note: contentCrawler will search and assess documents marked as 'Official version' only

5 – Import from Objective available.

Save into to Objective as New Document or New Version of Existing Document.

In Objective, extenders offer Load into Project; Save as New Document / New Version and Email as PDF.

6 – Import from Content Server available (for CS10.2 and upwards, Enterprise Connect must be installed).

Save into to Content Server as New Document; New Version; New Rendition; New Generation; New Shortcut (for CS10.2 and upwards, Enterprise Connect must be installed).

In Content Server, right clicks offer Email as PDF; Create as New Document / New Version / New Rendition / New Generation / New Shortcut; Apply Digital Signature and OCR to Word, Load into Project.

6a – contentCrawler options available are Save as New Version and Save as Rendition.

7 – Import from Enterprise Connect, utilizes Content Server integration settings.

Save into to Enterprise Connect, utilizes Content Server integration settings and offers Save as New Document; New Version; New Rendition; New Generation; New Shortcut.

In Enterprise Connect, right clicks (on single document selection only) offer Email as PDF; Create as New Document / New Version / New Rendition / New Generation / New Shortcut; Apply Digital Signature and OCR to Word, Load into Project.

8 – Import from eDocs DM available.

Save into to eDocs DM as New Document / New Version / Related Document / Attachment and Sub-version.

In eDocs DM, right clicks offer Email as PDF; Create as New Document / New Version / Related / Attachment / Sub-version; Apply Digital Signature; OCR to Word; OCR to PDF, Load into Project.

compareDocs right click options offer Send to compareDocs.

8a – pdfDocs 4

Import from eDocs DM available.

Save into to eDocs DM as New Document / New Version / Related Document / Attachment and Sub-version.

In eDocs DM, right clicks offer Open in pdfDocs; Import into Project; Email as PDF; Save as New Document / New Version / Sub-version / Attachment / Related; Export to Word.

8b– contentCrawler options available are Save as New Version / Related / Attachment or Replace Original.

Notes

9 – Import from Livelink available.

Save into options offer Saved as a New Document / Current Version / New Version or Related.

Livelink right click options offer Save As New Document / New Version / Related Document; Email as PDF; Load into Project; Apply Digital Signature; OCR to Word.

9a – contentCrawler options available are Save as New Version / Rendition

10 – Import from ProLaw available.

Save into options offer Save as New Document / New Version.

ProLaw right click options not available.

10a – contentCrawler options available are Replace Original

11 – Import from Visualfiles available.

Save into Visualfiles as New History Document

No right clicks available in Visualfiles.

12 – Import from Worldox available.

Save into options offer Save as New Document / Current Version / New Version and Related Document.

pdfDocs right click options offer Apply Digital Signature; Create as New Document / Related Document/ New Version; Email as PDF; Load into Project; OCR to Word.

compareDocs right click options offer Send to compareDocs.

12a – Worldox GX3 clients require the latest GX3 patch 68F.B7D.81C (released Sep 16 2013) or above to be compatible with contentCrawler 2.1 U2. Worldox GX2 client do not require a specific patch for compatibility.

Installer wizard page to collect user and password information to run CC service under a user context.

contentCrawler options available are Save as New Version and Replace Original.
